

SEND Support for Home Learning

This is a list of information websites, tips and resources to help you support your children with their additional needs, learning and self-esteem. Children have varying needs and there is no one size approach fits all. It is quite common for children to have additional needs that span all these areas, so select the resources that meet the needs of your child, without worrying too much about the label or category they fall under. Everyone has strengths and weaknesses and these SEND strategies will be beneficial to many children, whether or not they have a diagnosis.

ASD	
Information Websites	<p>https://www.autism.org.uk/ - this has some fabulous resources including social stories, tips on where to find community groups to share ideas of how to support sensory needs at home and suggestions of activities that can be done indoors.</p> <p>https://www.autism.org.uk/about/family-life/parents-carers.aspx - some useful resources to support parents and carers.</p>
Tips	<ul style="list-style-type: none"> - Children with Autism often need structure and routine. You can help them by using visual timetables to help them see what is happening at each step of the day, so they know in advance what they will be doing next. This will relieve some of their anxiety. Alternatively, use of a Now and Next board can help to clarify structure by helping to explain what is happening now and what will be next. Examples of each of these that you can print off and use at home are attached to the school website. - You might want to set a specific place for them to do any work or tasks. At school they may have this in the form of a workstation to support their learning (see example in resources section). Each child's workstation may differ slightly, so you could ask your child to help you set one up that will suit them or that they are already used to. - Prepare them for changes in routine. - Help your children to recognise and name different emotions and feelings. You can do this by discussing their own emotions, how characters in books and on TV programmes might be feeling and how you yourselves might be feeling. Alongside naming the emotion, describe it and explain why you, they or fictional characters might be feeling like that. You can also play role play guessing games and ask them to name the emotion and say why. - Use a 5 point scale to support children in managing their emotions. - Use social stories and comic strip cartoons to help children understand different situations and perspectives and address inappropriate behaviour. - Have a visual aid to support wanted and unwanted behaviours (- Be aware of your child's sensory needs and support them in managing that need to help them learn e.g. sound reducing earphones if noise is a problem, comfortable clothes, keep the area surrounding the work space clear to avoid over-stimulation etc.

	<ul style="list-style-type: none"> - Play lots of games with your child to encourage social skills, such as taking turns and winning and losing.
Resources	<p>Visual timetable and Now and Next board – see document that can be downloaded from the school website.</p> <p>Social stories and comic strip cartoons: https://www.autism.org.uk/about/strategies/social-stories-comic-strips.aspx 5 point scale: https://www.5pointscale.com/ Social skills games and calming strategies – see school website and http://autismteachingstrategies.com/free-social-skills-downloads-2/ - this website has some useful resources that can be downloaded for free and have been designed specially for use during the Covid 19 closures.</p> <p>Example of how a workstation might be set up - see document that can be downloaded from the school website.</p>
ADHD	
Information Websites	<p>https://www.adhdfoundation.org.uk/information/parents/ - links to a host of information and further links regarding supporting children with ADHD</p> <p>General Info on ADHD - http://www.adders.org/info170.htm</p> <p>Self esteem - http://www.adders.org/info79.htm</p> <p>Managing ADHD - http://www.adders.org/info58.htm</p>
Tips	<ul style="list-style-type: none"> - Offer routines and structure - Create a quiet space for them to learn with no distractions. - Give them something to fiddle with whilst you are talking to them or you want them to focus. It can also be helpful to let them move around whilst they listen. - Ask them to do one task at a time – a Now and Next board can help with this – an example is attached to the school website. - Provide checklists or visual timetables to support organisation – an example is attached to the school website. - Use timers to help with time management and build in frequent movement breaks. - Suggest rather than criticise (children with ADHD often have low self-esteem) - Provide lots of opportunities for exercise and movement. - Set up a reward scheme to encourage them and support them with their behaviour. - Build on success and help children to pursue more of what they enjoy. - Put clear boundaries in place.
Resources	<p>https://www.thebodycoach.com/blog/pe-with-joe-1254.html Play games on consoles such as just dance, Wii Sports etc. to get your kids moving</p>
Dyslexia	
Information Websites	<p>https://www.bdadyslexia.org.uk/advice/children/how-can-i-support-my-child - some useful information and resources for supporting children at home.</p> <p>https://www.understood.org/en/school-learning/learning-at-home/homework-study-skills/8-working-memory-boosters</p>

Tips	<p>- It is important to encourage children to recognise and pursue the areas in which they excel (do more of what they enjoy) and support them with the areas they find difficult.</p> <p>-Allow children to use a computer to complete some written tasks. This highlights spelling errors and offers alternatives. If they can't type, encourage them to learn, so that they are able to use a keyboard with more speed and fluency.</p> <p>-Play games to support memory and retention e.g. pairs, Go Fish etc. (see resource links for more ideas)</p> <p>-Enable children to access age related audiobooks to develop a love of reading. Encourage (don't force or push) them to share what's happening in the story and share their excitement, wondering aloud what will happen next. This will also develop their vocabulary and comprehension, without them even realising that they are learning. During school closures Audible is offering free access to some children's audio books. The Epic website is also currently free during school closures and has a selection of Read to Me and Audio books.</p> <p>-Don't make reading a fight. Encourage children to read one page and you read the next page. Read some books to them for pleasure and invite them to read a section if they want to (don't push if they don't want to). By developing a love of books and stories children will naturally want to learn how to read, so make the experience as pleasurable as you can.</p>
Resources	<p>Dancemat Typing – free beginners typing course for children. https://www.bbc.co.uk/bitesize/topics/zf2f9j6/articles/z3c6tfr</p> <p>Free Phonics games - https://www.phonicsplay.co.uk/</p> <p>https://www.weareteachers.com/working-memory/</p> <p>https://www.understood.org/en/school-learning/learning-at-home/homework-study-skills/8-working-memory-boosters</p> <p>Free audio stories https://stories.audible.com/start-listen and https://www.getepic.com/</p>
Motor Coordination Disorder/Dyspraxia	
Information Websites	<p>https://dyspraxiafoundation.org.uk/ - for general information</p> <p>Advice from the dyspraxia foundation regarding physical activity - https://dyspraxiafoundation.org.uk/wp-content/uploads/2020/03/Physical-Activities-for-Children-and-Young-People-March-2020.pdf</p>
Tips	<ul style="list-style-type: none"> - Allow children to use a computer to complete some written tasks. If they can't type, encourage them to learn, so that they are able to use a keyboard with more speed and fluency. - Offer routines and structure - Create a quiet space for them to learn with no distractions.

	<ul style="list-style-type: none"> - Give them something to fiddle with whilst you are talking to them or you want them to focus. It can also be helpful to let them move around whilst they listen. - Ask them to do one task at a time - Provide checklists or visual timetables to support organisation – an example is attached to the school website. - Use timers to help with time management and build in frequent movement breaks. - Play lots of games with your child to encourage social skills, such as taking turns and winning and losing. - Help your children develop their fine and gross motor skills and core stability (see resource below) <p>https://dyspraxiafoundation.org.uk/wp-content/uploads/2013/10/classroomguidelines.pdf</p>
Resources	<p>Dancemat Typing – free beginners typing course for children. https://www.bbc.co.uk/bitesize/topics/zf2f9j6/articles/z3c6tfr</p> <p>Motor skills development – comprehensive resource to support development of motor skills: https://www.lincolnshirecommunityhealthservices.nhs.uk/application/files/2915/2285/5110/1st_Move.pdf</p> <p>Visual timetable (see school website)</p> <p>Social stories and comic strip cartoons: https://www.autism.org.uk/about/strategies/social-stories-comic-strips.aspx</p> <p>5 point scale: https://www.5pointscale.com/</p>
Dyscalculia	
Information Websites	https://www.sess.ie/categories/specific-learning-disabilities/dyscalculia/tips-learning-and-teaching - some useful strategies to help children who find calculation difficult.
Tips	<ul style="list-style-type: none"> - Concentrate on one problem at a time. - Use lots of visuals and physical resources that the children can move around. - Include children in supporting you with everyday maths problems e.g. cooking, measuring, money etc. <p>https://blog.brainbalancecenters.com/2016/02/5-strategies-for-managing-dyscalculia</p>
Resources	https://whiterosemaths.com/homelearning/ - excellent resource for supporting home learning. Try to combine this with the use of some concrete resources such as counters (lego bricks would work fine), coins etc to help children visualise the maths and manipulate numbers.
Speech and Language	
Information Websites	https://www.tamesidehospital.nhs.uk/our-services/community-services/speech-and-therapy.htm

	https://www.thecommunicationtrust.org.uk/
Tips	<p>Speech sounds</p> <ul style="list-style-type: none"> - Model speech to the children by repeating words back to them correctly. <p>Understanding:</p> <ul style="list-style-type: none"> - Give children time to process what you have asked and respond. - Use simple language and break instructions down into smaller steps. - Encourage children to answer questions, such as who, what, where, when and why? When reading their books. Encourage them to tell you the story in their own words. <p>Expression</p> <ul style="list-style-type: none"> - Talk about all your experiences in detail, teaching new vocabulary all the time. - Discuss vocabulary in books, making sure the children understand the meaning of tricky words. <p>Social Communication</p> <ul style="list-style-type: none"> - Play lots of games with your child to encourage social skills, such as taking turns and winning and losing. - Use a visual timetable and visual aids to provide structure and routines.
Resources	<p>Continue to work on Speech and Language targets set by the Speech and Language Therapist (if already seen).</p> <p>https://www.thecommunicationtrust.org.uk/resources/resources/resources-for-parents/ - links to a variety of resources that you might find useful when supporting your child at home.</p> <p>http://autismteachingstrategies.com/free-social-skills-downloads-2/ - some useful activities that you can download to support development of social communication skills.</p>
