

Computing

The early learning goals that previously linked to computing (EYFS technology) have been removed from the Early Years Foundation Stage Framework 2020. There is no mention of the teaching of technology in the education programmes or development matters document either. We understand how important it is that children develop their technology skills and will continue to use a range of technology to support and enhance learning in other areas of the curriculum. For example, the children will see the **Bee-Bots** when learning about direction and will use I pads to listen to and watch animated stories, watch videos linked to our topics and play games to develop phonic and number skills.

In foundation stage the children.....

-

- Have dail access to a range of technology resources such as torches with switches, beebots, talking tins, voice-recording toys, as well as ipads and an interactive whiteboard.
- Are taught how to use the resources for different purposes eg ipads to watch videos, play games, take photographs and listen to stories.
